Your show on Anthrax was very indepth and informative- as a new 911 it was an inside job convert I readily accept what the US government is attempting to do. Since the Kennedy assassinations and with the help of the internet I can see as long as people like bush and the people who pull his strings are in a position of authority I have to say there is no hope. I try and keep a lot of this information away from my family and when it's talked about at work I try and make light of it knowing how very true it is.
